To: "mro@azica.gov" &lt;mro@azica.gov&gt;

I am a retired DPS Sgt. that received a duty related debilitating back injury and have already had difficulty in receiving my medications as awarded to me by the industrial Commission. Please do not cheap out those of us that sacrificed our safety and health to serve the public.

The Arizona Workman's comp pays millions to doctors to write reports against those that are injured while on duty, and discourage treatments and medications. Its a disgrace.

The doctors that treat the injured know the best medication and treatments for their patients, and should not be restricted by saving a nickle.

I thank you for your considerations on this very important matter.

F.A. Wright, DPS Sgt. (Ret)
